MORAVKA

a tradition based on craftsmanship

Moravka company was founded in the early seventies of the past century, on the foundation of paprika factory and a decades-long tradition in the production of ground paprika. Through the efforts of management and cooperation with German partners, the most modern factory for the production of food products, with a capacity of several thousand tons of finished product and with integrated quality systems was built and equipped. The technological level of production has been brought to the maximum level by the complete overhaul of the machine park.

The factory of MORAVKA PRO consists of three segments: Factory of traditional and instant coffee, Factory of waffles and confectionery products, Factory of packaged products. By investing in new and modern production capacities and equipment and improving the production process MORAVKA PRO nowadays produces in these three factories food products from the groups: WAFER, COFFEE, TEA, SPICES, SOUPS AND SOUCES, WHIPPED CREAMS, PUDDINGS, CAKE PREPARATION, SMALL PACKAGE, GRAIN MILL PRODUCTS, GRAINS, APPETIZERS and many more.

Moravka pro has earned the title of one of the leading manufacturers of food products in the country and the region through respect of the principles of good business practice with mutual respect for all associates in the country and abroad.

In order to ensure safe and quality food production and to build a system of trust and control to consumers, MORAVKA PRO nurtures selecting the highest quality ingredients from reputable domestic and foreign manufacturers, building partner relationships with suppliers and continuous improvement of these relations. Constant control in all stages of procurement, production, processing, packaging, distribution enabled that MORAVKA PRO built a system of trust and control that guarantees consumers safe and quality food. The policy of the integrated management system (IMS) is an integral part of the overall business policy of MORAVKA PRO.

“MORAVKA PRO”

LEADER OF QUALITY AND RELIABILITY IN FOOD PRODUCTION.
